

DMARC Results

Connection parameters

Source IP address	52.1.148.142
Hostname	amsrv142.memberlodge.org
Sender	Rats@wildapricot.org

SPF

RFC5321.MailFrom domain	wildapricot.org 🔍
Auth Result	PASS
DMARC Alignment	wildapricot.org != rats.net

DKIM

Domain	rats.net
Selector	default 🔍
Algorithm	rsa-sha256
Auth Result	PASS
DMARC Alignment	PASS

DMARC

RFC5322.From domain	rats.net 🔍
Policy (p=)	quarantine
SPF	FAIL
DKIM	PASS
DMARC Result	PASS

Final verdict:

DMARC does not take any specific action regarding message delivery. Generally, this means that the message will be successfully delivered. However, it's important to note that other factors like spam filters can still reject or quarantine a message.
